TRAIL DESCRIPTIONS

Now offering Stony Pass and Poughkeepsie Gulch!

The Ouray Jeep Jamboree offers up to seven trails for your selection, depending on the total number of participants: the Imogene Pass/Last Dollar Road trail, the Yankee Boy Basin/Governor's Basin trail, the California Pass trail via Corkscrew Gulch and Mineral Point, the Placer Gulch/Picayne Gulch trail, the Ophir Pass/Imogene Pass trail, **new beginning in 2012** the Stony Pass/Buffalo Boy Tram House trail, and the Poughkeepsie Gulch trail. Both the California Pass trail and Placer Gulch/Picayne Gulch trails stop for lunch at Animas Forks.

Please note that by holding the Ouray Jamboree in September so that our participants can enjoy some of Colorado's beautiful fall colors we also run the risk of an early snowfall closing our high trails. Although generally rare, should this happen we will use lower trails that still offer beautiful scenery. All six of our trails open to all participants have equally spectacular scenery and trail ratings of 3-7. The Poughkeepsie Gulch trail, which is only open to a limited number of Jeeps experienced on highly-rated trails, is rated 9 or above depending on conditions. Regardless of the trails you choose, no one will miss out on any of the alpine splendor the San Juans have to offer. Note that peak fall colors occur in the San Juans on different dates from year to year. At the time of the Ouray Jamboree, fall color can range from just starting to near peak. If we are graced with good color, mountainsides of gold aspens will take your breath away, and the scenic views are spectacular. Be sure to bring your camera! There will be plenty of rest breaks and photo stops along the way.

Two of the six trails stop for lunch at the ghost town of Animas Forks. Perhaps the best preserved of all of Colorado's mining-era ghost towns, the gold and silver mills at Animas Forks have survived over a hundred years of sub-zero winters and annual snowfalls of over 400 inches. Built at the timberline, Animas Forks was the end of the line for the Silverton Northern Railroad.

The third trail will visit Yankee Boy Basin, world-famous for its incredible yearly wildflower display in late July. Yankee Boy Basin is also home to the twin waterfalls that appear on the Coors Brewing Company logo (seen on every can and bottle of Coors beer). From Yankee Boy Basin the trail leads up into Governor's Basin, located near the top of the mountains separating Ouray and Telluride. Besides containing one of the last abandoned mines in the area, Governor's Basin offers unique views of Mt. Sneffels all the way down to the entrance of Yankee Boy Basin.

The fourth trail will climb to Stony Pass after first taking the side trail up to Buffalo Boy Tram House. Stony

Pass crosses the Continental Divide through an area rich in mining history. There are kiosks all along the trail that explain points of interest. At one point, you cross under an aerial tramway with an ore bucket suspended over the road. You reach the origination point of the bucket by taking the side trip to the Buffalo Boy Tram House. Stony Pass got its name because of its rocky terrain. The Ute Indians used the trail for centuries, and Spanish artifacts have been found in the area. It was the main route into the Silverton area (and thus the Red Mountain Mining District and Ouray) until the railroad began running to Silverton from Durango in 1882. Known for its beautiful scenery, Stony Pass is lightly used compared to other, better-known trails. If time allows, this group will make a quick side-trip to Emma Lake on its return to Ouray. In May 1978 this lake drained when the bottom collapsed into a mine shaft after miners tunneled too close to the lake.

The groups driving the fourth and fifth trails will head for the Rocky Mountain high country of Imogene Pass. At 13,114 feet, Imogene Pass offers some of the most beautiful views in all of Colorado. For those driving the Ophir Pass/Imogene Pass trail we will traverse Ophir Pass to travel to Telluride prior to heading to Imogene Pass. The Ophir Pass trail offers some stunning scenery and a trip through the small mountain town of Ophir. For those driving the Imogene Pass/Last Dollar Road trail, after driving over the pass and descending into Telluride we will return to Ouray via Last Dollar Road. If the scenery and buildings along the trail seem familiar to you, it may be due to the fact that the popular John Wayne movie "True Grit" was filmed along our route.

Some years a seventh trail will be offered, but this trail is not open to general sign-up. This is the Poughkeepsie Gulch trail, which is the most technically challenging trail in the area. The trail heads up Poughkeepsie Gulch, one of the prettiest canyons in the area, and returns to Ouray via Hurricane Pass and Corkscrew Gulch. The Poughkeepsie trail includes sections through old streambeds and talus fields, with more advanced rock crawling required. The main obstacle is a climb up a steep 2-tiered hill. When wet this hill becomes quite slippery and winching or strapping is required to climb it. If overly wet the hill is impassable and the group will have to return back down the gulch. Due to the degree of challenge involved only a small number of experienced Jeepers will be accepted for this trail. Off-road tires will be required in addition to the standard requirement for tow points; lockers and high ground clearance are recommended. Jeep Jamboree USA is permitted on the Grand Mesa, Uncompahgre and Gunnison National Forest.

INTERESTING FACTS

Ouray is in the very heart of the San Juan Mountains. This mountain range was originally formed by molten lava and ice. Thirty-five million years ago enormous volcanic eruptions left deep lava craters behind. The most recent ice age formed the mountains, carving out great valleys, cliffs and peaks.

The city was named for Chief Ouray, leader of the Uncompahgre Utes, who led his people in the 1800s. He befriended early miners and was credited with preventing a tremendous amount of bloodshed between the Utes and the first miners to the area.

The Utes migrated with the seasons, following the elk and deer herds. They hunted the San Juan Mountains from early spring to late fall. Winter months would find them in warmer, lower valleys where they enjoyed the many hot springs. Uncompahgre is a Ute word meaning "warm springs". Today's Utes make up the only two Indian tribes in Colorado: the Ute Mountain Tribe near Cortez, and the Southern Ute Tribe near Ignacio. In their 1800s treaty the Utes were given permission to hunt the San Juans year-round without a license.

Prospectors looking for gold and silver arrived in the Silverton area as early as the 1860s, but did not head north over the rugged mountains to Ouray until 1874. Gus Begole and Jack Echols are reported to have been the first gold seekers to find Ouray. Having come up from the Silverton area, the two men discovered a rich outcropping of parallel veins of ore. They named their find "The Mineral Farm" because the ore could simply be dug out of the ground like potatoes. Ouray was incorporated in 1876, and within ten years the city had more than 1,200 inhabitants.

WHAT TO BRING

- ___ **CB Radio**
- ___ Basic tool kit recommended!
- ___ First aid kit recommended!
- ___ Tire gauge recommended!
- ___ Ice chest full of your favorite non-alcoholic beverages
- ___ **Full tank of gas prior to General Attendance Meeting!**
- ___ LOTS OF FLUIDS – This is a very dry climate!

We HIGHLY recommend that you bring a CB radio!

There are many safety issues regarding upcoming obstacles transmitted over the CB radio by your trail guides. It is important for each vehicle to have a CB radio. Learn interesting facts about the area - history, local plant and wildlife, as well as exciting stories.

Other important items to consider bringing are: drinking water, trail snacks, chair or blanket for lunch stops, flashlights, camera/video camera, binoculars, insect repellent, sun block, hat, hiking boots, toiletries & medications, toilet paper and zip-lock bags for tissue disposal, hand sanitizer, rain jacket and warm clothing.

TRAIL USAGE AND INFORMATION

WATER CROSSINGS

We may have water crossings and water holes. Many of these crossings and holes offer a bypass if you decide to "go around". It is very **IMPORTANT** to watch and listen to your trail guide. Please be sure your air intake is disconnected. Your trail guide can help you with this if needed. When driving in deep water, GO VERY SLOW! If your engine gets wet and stalls, DO NOT try to start it as you may cause serious engine damage. After the Jamboree, please be sure to reconnect your air intake. For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving".

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Friday and Saturday trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to inspection prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

1-2 Obstacles and terrain are relatively easy to navigate. In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).

3-5 Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

6-7 Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

8-9 Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

10 Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO (*Not recommended for Jeep Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commander.*)

During registration Participants will have the opportunity to discuss the trails, their driving experience and vehicle capabilities with the trail guides. Guides will work with participants for trail placement.

RAIN MAY INCREASE TRAIL RATINGS 1 OR 2 POINTS, ESPECIALLY WITH STREET TIRES.

FRIENDLY REMINDERS – Before, During, After Your Trip

BEFORE YOU LEAVE

Please return a waiver form signed by everyone in your vehicle (by mail, fax or email) to the JJUSA office as soon as possible. Your registration **IS NOT COMPLETE** until we receive a completed waiver. This helps you to prevent delays in processing your registration and avoid longer wait times during registration. A waiver for participants under the age of 18 years old must be signed by a parent or the minor's legal guardian.

New Registrations and Adding Passengers: It is very important to register new vehicles and/or passengers **at least two weeks** prior to the Jamboree date. This will enable us to give an accurate count to our caterer for the meals. Please note that registration prices are per person, not per Jeep vehicle.

Event T-Shirts are not included in your registration fee. You may pre-order event T-Shirts at the time of your registration. Shirts will be given to you at Thursday registration. Other Jeep Jamboree USA clothing and merchandise will be available onsite and online; however quantities and sizes are limited.

WHILE YOU ARE THERE...

Name Badges and Wristbands

When you register on-site Thursday evening you will be given one nametag and a wristband. Please wear both of these while at the event. They are verification of registration. Those without a wristband will not be served meals or allowed on the trails.

WHAT TO EXPECT

You will travel over rough terrain. Any damage is the owner's responsibility. Remember, Jamborees with higher numerical difficulty ratings are more likely to encounter terrain that may contribute to vehicular damage. Weather conditions may also increase the trail rating difficulty.
