A MESSAGE FROM YOUR COORDINATOR

Thank you very much for joining us at this very special Jeep Jamboree! Arch Canyon has long been a favorite of those who have attended it due to its great Jeeping, very special location, small, intimate nature and the fact that all meals after breakfast Friday are served outdoors in Cottonwood Camp (located just outside the mouth of Arch Canyon). Meals eaten outside always seem to taste better, right? Because we eat outside I strongly recommend you bring folding chairs and some kind of small table to use – they will make eating breakfast and dinner much easier.

A pop-up shade may also be useful, especially for lunch stops. Besides eating meals outdoors, you also get to interact with the crew to a much larger degree than normal, which is something we as a crew truly enjoy. And while we can't promise anything, we are often graced with a visit by a group of Ute Mountain Ute drummers and singers (and occasionally dancers in full costume) who perform for us just before dinner Friday, adding an interpretation of the history of this beautiful and serene Ute land. (The Ute Mountain Ute Tribe is our very generous host, allowing us overnight use of Cottonwood Camp.)

Participants pulling Jeeps on trailers may want to unload them at Cottonwood Camp. The road into camp is narrow with limited turn-around space, however, camp trailers and motor homes can make it into camp without trouble. There are no hookups available; it is primitive camping only. Port-a-potty and hand washing stations will be available. Some participants may choose to camp at Cottonwood Camp. Please request a copy of the overnight land use permit at registration if you will camp around Cottonwood Camp, as you may be asked to show this to tribe officials.

Camp is approximately 30 minutes from Blanding. You have the option to either camp at Cottonwood Camp Thursday, Friday and Saturday evenings or make motel reservations in Blanding.

TRAIL DESCRIPTIONS

The Arch Canyon Jeep Jamboree offers two trails. Participants will be divided into two groups. One group will do the Arch Canyon Trail on Friday and the Hotel Rock Trail on Saturday; the other group will do these same trails but in reverse order. No more than 25 vehicles total will be assigned to either trail due to permit restrictions.

Arch Canyon, Trail Rating 4 The majority of this trail is rated a 3, however small sections are a 4 and may even be a 5 due to winter run-off effects. It is approximately 8 miles to the head of the canyon. Due to the possibility of nesting raptors we may need to turn around roughly ½ to 1 mile before the head of the canyon. If this is the case then we will attempt to give you the opportunity to hike to the head of the canyon during our lunch stop so you can see the arch that gives Arch Canyon its name. You will be driving on sand and sediment and will be navigating rocks. Undercarriage clearance is not a problem if you pay attention. The road is forever changing with the

winter's run off. Conditions cannot be predicted. We will have scheduled stops and plenty of photo opportunities. If you make an unscheduled stop, pick a spot to pull over where you will not be driving on plant life and following Jeeps can pass you. Please show consideration for others by not holding up the group. If possible we will turn around at the head of Arch Canyon below the arch for which the canyon is named; if not you will likely have the chance to hike to the arch as mentioned. Use the road to turn around but do not drive off the road. The plants and soil are very fragile here and this will help us protect the canyon. You will not be bored backtracking here; the light from the new angle of the sun will make you feel that you are in a totally different canyon as you drive out. You will see ruins that you missed while driving into the canyon.

Hotel Rock, Trail Rating 9 Due to the high difficulty rating of Hotel Rock, tow points are mandatory. Jeeps that have the bumper/tow hitch set up should purchase a tow point insert that fits the receiver hitch. Most 4-Wheel shops carry the insert. Prices average between \$20 - \$30. **Lockers and CB radios are highly encouraged on this trail!**

We will be graced by beautiful vistas of this rugged country and will make an extreme climb to Hotel Rock from the south. You will be challenged by steep sections, both up and down, sharp dips, and off-camber sections, both left and right. Drivers will not be able to relax until we reach flat ground, on Cedar Flats, near Hotel Rock. This is a pulse-quickening romp into the past, through Utah's majestic canyon lands. Tow straps may be needed on some vehicles in the more challenging sections. We will see mountain ranges over 150 miles away: the silver San Juan Mountains of Colorado and the Lukachukais of Arizona and New Mexico. All this can be seen below the snowcapped Blue Mountains of Utah. The contrast here is a photographer's dream, for both amateur and professional alike. Hotel Rock was so named because of the ruins that were built into its vertical walls by the "Ancient Ones".

INTERESTING FACTS

This is one of the most beautiful places in all of Utah's Canyon Lands, home of the "Ancient Ones". For thousands of years the Anasazi Indians flourished throughout the Four Corners area. It is estimated that over 250,000 Anasazi lived here in San Juan County alone. Remnants of their past can be seen in almost every canyon in southern Utah. Some of the largest concentrations of their past can be found here, on the high walls of Arch Canyon. Even today it is easy to understand why this culture consisting of hunter-gatherers chose this canyon to live. It is protected from harsh winters and searing summers. There are plentiful game, wild berries, roots and a year-round stream for water. Surely the scenic splendor of this place had something to do with their decision to settle here. Their fingerprints can still be seen in the mud used to seal the inside walls of their dwellings. The prints look fresh, like they were made yesterday. This is a place where time has stood still.

As you travel the Arch Canyon trails you will contemplate why a civilization numbering into the millions that prospered for thousands of years suddenly and mysteriously disappeared over 800 years ago. Was it war, drought, famine, or disease? No two authorities will agree on this issue.

Testimonial from a long time Jeep Jamboree USA Participant:

What made the 2010 Arch Canyon JJ the best JJUSA event I have attended to date?

The planning, coordination and execution of the event by Trail Boss Chris Timmes was flawless. Every aspect looked effortless and when that happens it means that a lot of pre-planning and attention to detail was expended ahead of time.

Team here not only means the crew, but their wives as well. I might also add that several of their wives also welcomed me to Arch Canyon personally, after remembering me from the Ouray Jeep Jamboree.

The food was exceptional. Scott Laws and his wife Lexi went out of their way to see that everyone was well fed and happy. It was also wonderful to see that most of their family worked on the food line from the youngest to Scott's parents. It was a family effort and was noticed by most of the participants I talked to. Scott's dad, Lynn, overheard me asking questions about the local Ute Indians and took 15 minutes out of his day to provide a lot of detail I would never have known otherwise.

The drumming and chanting event, put on by the Ute Mountain Ute Tribe, out of Towaoc, CO, was very well received and most of the participants took part in one of the two dance ceremonies Friday evening led by Afrem Wall, this was followed by Bill White telling two Ute stories, as well as playing two original songs on his flute.

After participating in JJ events for 11 years, I thought I knew most of the JJ events by reputation. However, I knew nothing about Arch Canyon. A final word on the Coordinator, Chris Timmes, he is a very accurate trail spotter and devoted a lot of time to mentoring participants new to Jeeps, off roading and/or Jeep Jamborees. Folks I met on the first day, who seemed ambivalent to the whole concept, went home JJ fanatics, and that's not all bad! Fred McDavitt - Escondido, CA

WHAT TO BRING

- ___ **CB Radio**
- ___ Basic tool kit recommended!
- ___ First aid kit recommended!
- ___ Tire gauge recommended!
- ___ Ice chest full of your favorite non-alcoholic beverages
- ___ Folding chairs, a small table and some type of pop-up shade are strongly recommended!
- ___ **Full tank of gas prior to General Attendance Meeting!**
- ___ LOTS OF FLUIDS – The temperature can be hot and this is a very dry climate!
(Note: San Juan County is a "Dry" county)

We HIGHLY recommend that you bring a CB radio!

There are many safety issues regarding upcoming obstacles transmitted over the CB radio by your trail guides. It is important for each vehicle to have a CB radio. Learn interesting facts about the area - history, local plant and wildlife, as well as exciting stories.

Other important items to consider bringing are: drinking water, trail snacks, chair or blanket (chair is preferable), a small table and a pop-up shade for lunch stops, breakfast and dinner, flashlights, camera/video camera, binoculars, insect repellent, sun block, hat, hiking boots, toiletries & medications, toilet paper and

zip-lock bags for tissue disposal, hand sanitizer, rain jacket and warm clothing.

TRAIL USAGE AND INFORMATION

WATER CROSSINGS

We may have water crossings and water holes. Many of these crossings and holes offer a bypass if you decide to "go around". It is very **IMPORTANT** to watch and listen to your trail guide. Please be sure your air intake is disconnected. Your trail guide can help you with this if needed. When driving in deep water, GO VERY SLOW! If your engine gets wet and stalls, DO NOT try to start it as you may cause serious engine damage. After the Jamboree, please be sure to reconnect your air intake. For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving".

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Friday and Saturday trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to inspection prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

1-2 Obstacles and terrain are relatively easy to navigate. In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).

3-5 Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

6-7 Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

8-9 Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

10 Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO (*Not recommended for Jeep Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commander.*)

FRIENDLY REMINDERS – Before, During, After Your Trip

BEFORE YOU LEAVE

Please return a waiver form signed by everyone in your vehicle (by mail, fax or email) to the JJUSA office as soon as possible. A waiver for participants under the age of 18 years old must be signed by a parent or the minor's legal guardian.

New Registrations and Adding Passengers: It is very important to register new vehicles and/or passengers **at least two weeks** prior to the Jamboree date. This will enable us to give an accurate count to our caterer for the meals. Please note that registration prices are per person, not per Jeep vehicle. *** 2 Participants per Jeep are required for Arch Canyon Jeep Jamboree. ***

Event T-Shirts are not included in your registration fee. You may pre-order event T-Shirts at the time of your registration. Shirts will be given to you at Thursday registration. Other Jeep Jamboree USA clothing and merchandise will be available onsite and online however quantities and sizes are limited.

WHAT TO EXPECT

You will travel over rough terrain. Any damage is the owner's responsibility. Remember, Jamborees with higher numerical difficulty ratings are more likely to encounter terrain that may contribute to vehicular damage. Weather conditions may also increase the trail rating difficulty.
