MESSAGE FROM YOUR COORDINATORS

YAATEEH (YAH-TA-HEY), Hello

Welcome to the 23rd annual Canyon de Chelly (shay) Jeep Jamboree. You will see ancient cliff dwellings with a Navajo guide and experience the awesome geologic wonders of the canyon.

We are guests of the Navajo people and we must respect their property and traditions. Please remember you will be traveling with a Navajo guide during the trip. The guide will help you to recognize and understand some of the features and history of the canyon.

Please do not go off on your own into the canyon. No vehicle is to enter or leave the canyon without a Navajo guide at any time or for any reason.

The same families have lived in Canyon de Chelly and worked the same farms for generations. They live in the traditional Navajo way, farming, raising sheep and tending fruit orchards. There are no utilities in the canyon. The Navajo live in the canyon during the summer, but move out for the winter. Today, many Navajo work as guides in Canyon de Chelly, since non-Navajo people are not allowed in most of the canyon without a Navajo guide.

INTERESTING FACTS

Monument headquarters and the Visitors Center, administered by the National Park Service, are located at the western portal of Canyon de Chelly, just east of Chinle. Your visit should begin at the monument headquarters. Maps and other interpretive information may be obtained here. Adjacent to monument headquarters is a museum with exhibits explaining both the geologic and prehistoric features of this region. Just outside, a model Navajo Hogan and a Ramada are on display. There is also a short nature trail identifying local plants.

Trip Tidbits

If time allows, we recommend you take one of the self-guided tours along the top of both canyon rims. A video titled "Seasons of the Navajo" by PBS Home Video may be purchased at the Visitor Center. This video is about Chancey and Dorothy Naboyia and family. Chancey, his grandson Daniel and many other family members will be your guides.

New for 2014: CB radio is MANDATORY! There are many safety issues regarding upcoming obstacles transmitted over the CB radio by your trail guides. It is required that each vehicle to have a CB radio. Learn interesting facts about the area - history, local plant and wildlife, as well as exciting stories. and listen to your trail guide. Please be sure your air intake is disconnected. Your trail guide can help you with this if needed. When driving in deep water, GO VERY SLOW! For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving".

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas, which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Friday and Saturday trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle check prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

1-2 Obstacles and terrain are relatively easy to navigate. In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).

3-5 Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

6-7 Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

8-9 Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

10 Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO (*Not recommended for Jeep Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commander.*)

During registration participants will have the opportunity to discuss the trails, their driving experience and vehicle capabilities with the trail guides. Guides will work with participants for trail placement.

RAIN MAY INCREASE TRAIL RATINGS 1 OR 2 POINTS, ESPECIALLY WITH STREET TIRES.
