# OURAY TRAILS LISTED FROM EASIEST TO MOST DIFFICULT FOR A STOCK JEEP

## **Last Dollar Road Trail - Ophir Pass** Ophir 2-3 / Last Dollar 2 - West Trail - Staging Area 3

Easiest trail offered; good choice for true First Timers. If wet, Last Dollar Road can be slippery in spots. No porta-potties on the trails. Both trails very scenic. Last Dollar Road passes through a section that used to be part of Ralph Lauren's ranch and also passes the housing sets used in the original "True Grit" movie (with John Wayne). There will be a stop in Telluride for a bathroom break.

## **Stony Pass – Buffalo Boy Tram House Trail** Stony Pass 2-3 / Buffalo Boy Tram House 4-5 - East Trail - Staging Area 2

The Stony Pass / Buffalo Boy Tram House trail is varied, presents excellent views and is a good choice for beginners. This trail is also of interest to those who want to visit a well-preserved mine-side tram house that still has the cables strung and intact. The Stony Pass trail is relatively easy and smooth; the Buffalo Boy Tram House side trail is a bit rougher and includes a somewhat steep section. Porta-potties near the trailhead/trail end. Elevation of Stony Pass is 12,588'.

## **Yankee Boy Basin – Governor's Basin Trail** Yankee Boy 2-3 / Governor's Basin 4-6 - West Trail - Staging Area 1

Yankee Boy Basin trail is short, varied and a good introduction to 4x4 off-roading. 4WD is necessary once you reach the porta-pottie. Governor's Basin Trail is a narrow shelf road that can be much more difficult than Yankee Boy. Passing can be difficult in some sections. Great view of Yankee Boy Basin below to top of Mt. Sneffels from Governor's Basin. Highest elevation at Governor's approx. 12,338'.

## **Imogene Pass - Last Dollar Road Trail** Imogene 5-6 / Last Dollar 2 - West Trail - Staging Area 1

Some off-road experience needed, comfortable for beginners. Some slight challenges and sections of trail with steep drop-offs on Imogene Pass Trail. A lot of time is spent above timber line, very scenic. No porta-potties on the trails. Imogene Pass at 13,114' can be cold and windy, possibly with some snow; dress appropriately. There will be a stop in Telluride for a bathroom break.

## **Ophir Pass - Imogene Pass Trail** Ophir 2-3 / Imogene 5-6 - West Trail - Staging Area 2

Some off-road experience needed, comfortable for beginners. Ophir Pass is at 11,789'; the west side is a narrow shelf road on a talus slope. Incredible mountain views above timber line. No porta-potties on either trail. Both passes can be cold and windy, possibly with some snow on Imogene Pass; dress appropriately. There will be a stop in Telluride for a bathroom break.

## **California Pass Trail** Alpine Loop to Mineral Point 6 / California Pass 4 / Corkscrew Gulch 4-5 - East Trail - Staging Area 1

# Ouray

## INTERESTING FACTS

Ouray is in the very heart of the San Juan Mountains. This mountain range was originally formed by molten lava and ice. Thirty-five million years ago enormous volcanic eruptions left deep lava craters behind. The most recent ice age formed the mountains, carving out great valleys, cliffs and peaks.

The city was named for Chief Ouray, leader of the Uncompahgre Utes, who led his people in the 1800s. He befriended early miners and was credited with preventing a tremendous amount of bloodshed between the Utes and the first miners to the area.

The Utes migrated with the seasons, following the elk and deer herds. They hunted the San Juan Mountains from early spring to late fall. Winter months would find them in warmer, lower valleys where they enjoyed the many hot springs. Uncompahgre is a Ute word meaning

“warm springs”. Today’s Utes make up the only two Indian tribes in Colorado: the Ute Mountain Tribe near Cortez, and the Southern Ute Tribe near Ignacio. In their 1800s treaty the Utes were given permission to hunt the San Juans year-round without a license.

Prospectors looking for gold and silver arrived in the Silverton area as early as the 1860s, but did not head north over the rugged mountains to Ouray until 1874. Gus Begole and Jack Echols are reported to have been the first gold seekers to find Ouray. Having come up from the Silverton area, the two men discovered a rich outcropping of parallel veins of ore. They named their find “The Mineral Farm” because the ore could simply be dug out of the ground like potatoes. Ouray was incorporated in 1876, and within ten years the city had more than 1,200 inhabitants.

## TRAIL USAGE AND INFORMATION

### WATER CROSSINGS

Some Jamborees may have water crossings and water holes. Many of these crossings and holes offer a bypass if you decide to "go around". It is very important to watch and listen to your trail guide. Please be sure your air intake is disconnected. Your trail guide can help you with this if needed. When driving in deep water, GO VERY SLOW! If your engine gets wet and stalls, DO NOT try to start it as you may cause serious engine damage. After the Jamboree, please be sure to reconnect your air intake. For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving".

### A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas, which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Friday and Saturday trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry. Also, please note that while we trim back as much brush as possible, we are limited by Federal, Tribal and Private landowners to the amount acceptable by each entity.

### PLEASE TREAD LIGHTLY!

**Travel responsibly** on designated roads and trails or in permitted areas.

**Respect the rights** of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

**Educate yourself** by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

**Avoid sensitive areas** such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

**Do your part** by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

## TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle check prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

**1-2 Obstacles and terrain are relatively easy to navigate.** In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).

**3-5 Moderately demanding.** Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

**6-7 Demanding.** Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

**8-9 Very demanding.** Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

**10 Extremely demanding.** Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO (*Not recommended for Jeep Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commander.*)

During registration participants will have the opportunity to discuss the trails, their driving experience and vehicle capabilities with the trail guides. Guides will work with participants for trail placement.

*RAIN MAY INCREASE TRAIL RATINGS 1 OR 2 POINTS, ESPECIALLY WITH STREET TIRES.*
