# THE WESTERN ALPS

## THE BORDER BETWEEN ITALY AND FRANCE

The Alps are the highest high mountain range in Central and Southern Europe. They extend in an arc 1,200 kilometers long and between 150 and 250 kilometers wide, from the Ligurian Sea to the Pannonian Basin. The entire Alpine region covers an area of about 200,000 square kilometers.

And it is here that we take care of the most beautiful tracks with the greatest history.

# DAY 1

## GATHERING IN THE MOUNTAINS

Our starting point is in the Grenoble region Auvergne-Rhône-Alpes. Easily accessible via Paris by plane, train or rental car. Here we meet in the afternoon for the trip briefing and the vehicles checkup.

In the evening we'll have dinner together in a traditional local accomodation. Early the next morning we will start our adventure together: The Alps await.

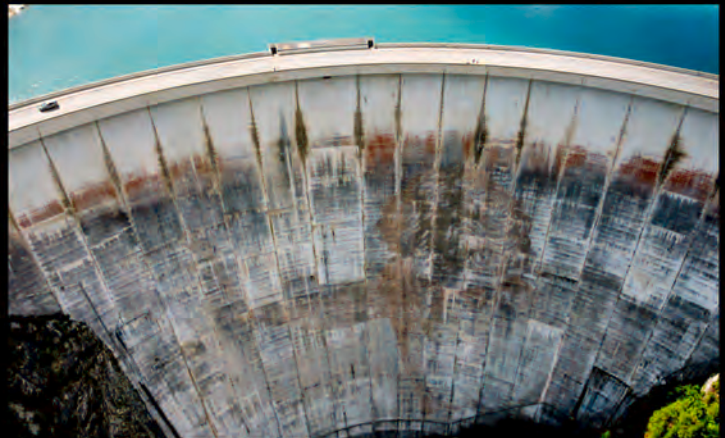

# DAY 2

## **FOLLOWING THE PATH OF JAMES BOND**

After about 1.5 hours of driving through the beautiful French mountains, we drive via Val-d'Isère where we will see the dam known from the movie "James Bond - Golden Eye" - which we will cross of course - and are already at one of the absolute highlights of the Alps: the Col de l'Iseran. A high alpine pearl that gives you a first feeling for altitude and curves. Onroad - but a masterpiece of road construction. Continue directly to the real altitude and serpentine training on natural track. Col de la Met. Whoever masters this one-way road is "ready for the Alps".

# DAY 3 | 4 | 5

## WHAT DO THE ALPS HAVE TO OFFER?

We will do nothing but ride the best tracks in the Alps - up to 3,000 meters - the highest (legally) passable point in the Alps. We have a great regional hotel in Italy and change borders with France several times a day.

You want some names? Col de Sommeiller, Assietta high ridge road, Monte Jaffreau, Col du Parpaillon and many more... We visit old forts, drive through narrow and long tunnels and on very narrow roads.

You must not be afraid of the heights here! But they will inspire you.

# DAY 6 | 7

## **EFFORT IS REWARDED WITH BEAUTY**

We move to the Ligurian Alps - another highlight. Here names are possible like the Maira Stura ridge road as well as the Ligurian border ridge road. You will always be speechless, what one has beaten from a military point of view in this region for routes in the mountains.

Our last night we spend in Cuneo, a beautiful city in Italy, and let this extraordinary journey pass in review.

# DAY 8

## ALL GOOD THINGS COME TO AN END

We take the chance for a little side trip directly to the Mediterranean Sea. How do you like the idea of going to San Remo for a short trip?

From there, we drive back to Grenoble and say goodbye in the afternoon.
