A MESSAGE FROM YOUR BIGHORN MOUNTAINS COORDINATOR

We are looking forward to sharing what we call our “back yard” with you. The Bighorn Mountains Jeep Jamboree will take you to some of America’s most picturesque areas. We offer this event as an off-road scenic tour. There will be some obstacles that will test the driving capabilities of both you and your Jeep, however you will mostly remember the wide-open scenery of this beautiful area.

This Jamboree will provide the amateur and experienced photographer with a backdrop for magnificent camera shots while you navigate in and around boulders, trees and mountain vistas. The Bighorn Mountains are conveniently located near other points of interest.

Before or after the Bighorn Mountains Jamboree plan on a side trip to the site of the Battle of Little Bighorn, Yellowstone National Park, Devil’s Tower, or Custer State Park. All of these historic and geographical marvels are within 4-5 hours of the Bighorn Mountains Jeep Jamboree. This is not city driving; it is wide open spaces that will keep you in awe of the surroundings you are driving through.

Make this your trip of a lifetime based around a Jeep Jamboree. Plan now for your Jeep Jamboree Vacation Get Away. We look forward to seeing you!

Sincerely – Seth Stebbins and the Bighorn Mountains Trail Guides

THE TRAILS

RATED 01 EASIEST – 10 HARDEST

FREEZEOUT

Rated 3–4

This trail is a sightseeing dream. Freezeout is a trail that is for the stock Jeep, relaxed driver or beginning Jeeper. The trail leads you near 10,000 feet to a spectacular view of the lovely mountain town in Wyoming named Dayton. The trail can have a bit of a washout to experience some fun Jeeping, on a relaxed trail while touring the Bighorn mountains, giving you a bit of a feel for what your Jeep vehicle is capable of all the while maintaining an easy pace.

WOODCHUCK

Rated 4

Woodchuck is a scenic trail that takes you to amazing rock outcroppings, through meadows and ending with a piece of Wyoming history called the Tie Flume, this trail is a photographer's mecca. During your time on woodchuck you will experience rocks, water crossings and reaching an elevation of around 9,800 feet all the while enjoying Wyoming scenery, livestock and wildlife- a moose or two have been known to frequent Woodchuck. There has even been a sighting or two of working dogs moving their flock of sheep through the breath taking meadows and valleys.

WILDERNESS

Rated 5–6

Wilderness trail begins in the national forest, with the natural beauty of the Bighorn National forest known for its dense woods, wildlife, variety of views and rocks. The trail ends with an abandoned mining operation. Rather than ascending up the mountain you will find yourself descending the mountain on a trail that has a little bit of everything. Wilderness has water crossings, mud, rocks and narrow places that allow for a close up of what your Jeep vehicle can really do.

SHELL

Rated 6–7

Shell is a trail that has much to offer for everyone, named for the splendid Shell Creek Reservoir. There are obstacles, water crossings and breathtaking Wyoming landscapes that are a must see. Although there are by-passes this trail offers challenges and a thrill that only the Bighorn Mountains can provide. While wheeling on Shell there are moments of off-camber, mud (depending on the previous winter and current weather), boulders and the monument rock known as Kissing Rock. Kissing Rock is a Shell right of passage that is sought after year and again. Shell is full of confidence boosting obstacles that are a tribute to what a Jeep can do all the while witnessing awe inspiring countryside.

299 LOCKER & 35" TIRES

Rated 6–7

299 is a crawler's playground. This trail is nestled in the trees with many obstacles that require at least one locker and 35" tires. You will get to experience the ever-satisfying tire squish on this challenging trail. The trail is narrow and full of rocks that offer a query especially when weather gets interesting. The old saying goes: "Don't like the weather in Wyoming? Wait a minute and it will change."

REQUIRED

Missing any of these means you are turned away at registration, without a refund.

- Tow points: frame-mounted tow hooks with grade 6 or 8 bolts, draw bars and receiver hitches, or aftermarket bumpers with a manufacturer-installed clevis or D-ring.
- A working GMRS-compatible radio. Guides call out upcoming obstacles, plus local history and wildlife.
- A full-size spare tire.
- Seat belts for all occupants, worn on the trail.
- Street legal, registered and insured, with a license plate.
- STRICTLY ENFORCED Tires no larger than 40". Suspension lift no more than 6". No exceptions.
- Roll bars on all open-topped vehicles, including CJs, Scramblers and Willys.
- A rated tree saver and soft shackle if you run a winch.
- No buggy-style Jeeps and no snowplow frames.

PACK LIST

Bring these with you — for registration, and for the trail.

- Signed waiver for every occupant; a parent or legal guardian signs for passengers under 18.
- Photo ID for the driver of record — the name must match the registration.
- Name badge, worn all weekend. It is your admission to trails and meals.
- Basic tool kit, first aid kit, tire gauge, rain jacket, clothing for all conditions.
- An ice chest of non-alcoholic drinks. Stay hydrated.
- Trail snacks and a chair or blanket for the lunch stop.
- Insect repellent, sun block, medications, hand sanitizer, flashlight, camera, binoculars.
- Toilet paper and zip-lock bags for tissue disposal.

Recommended: a tow strap with looped ends (metal hooks are not allowed), a fire extinguisher and first aid kit. Consider removing running boards and steps for higher-rated trails. Questions about your Jeep? Contact your Adventure Consultant before the event.

KNOW BEFORE YOU GO

- Registrations, and adding, deleting or changing passengers, close 14 days before the event.
- Check a 10-day forecast for every location listed here; conditions differ sharply between them.
- Drones require permission from your trail guides, and many landowners and agencies prohibit them outright.
- Alcohol and non-prescription drugs on the trail mean immediate expulsion without a refund.
- Pets are strongly discouraged; a pet waiver is required at registration.
- Trail access may be granted to guided Jamboree groups only — returning on your own violates our land use agreements.

TRAIL RATING SYSTEM

1–2

Relatively easy terrain. In optimum conditions some trails may not require continual use of 4WD.

3–5

Moderately demanding; a challenge for novice drivers. Mud holes, boulders, streams. Requires 4-LO.

6–7

Demanding at most skill levels. Deeper mud, larger boulders, steeper climbs. Requires 4-LO.

8–9

Very demanding. Getting stuck is likely and rock climbing is arduous. Lifts and lockers help.

Ratings describe the overall trail, not one or two tough spots. Rain, even from days prior, can raise a rating one or two points, especially on street tires. All vehicles are subject to a check before trail departure, and higher-rated trails are more likely to result in vehicle damage. When in doubt, ask a guide.
