TRAIL DESCRIPTIONS

Please note: Not all of the trails listed below will be available at sign up: however, a representation of all difficulty levels will be available to choose from.

Rivas Farm - Rated 5

This trail starts in pastures of a century old farm surrounded by huge stonewalls. Trails twist through the woods where you will find mud and moderate rocks. This trail is good for the beginning Jeep or as a refresher course for those that haven't tried off-roading in a while.

Whispering Woods - Rated 5

This trail winds through a huge parcel of land that was once a planned development. This trail borders the 9 mile Swinging Bridge Reservoir, which is home to many bald eagles, deer, bears and plenty of terrible terrain. Trail includes tricky hill climbs, moderate rocks, stream crossings and plenty of mud if mother nature cooperates with rain.

Bushville Road - Rated 5-6

This trail starts at the Rivas farm and wanders near the Mongaup River Valley to the former town of Bushville, whose last inhabitants moved out in the late 1930's. Challenging hill climbs, plenty of rock sections, goeey mud and if weather permits, the possibility of circling the Keifer Marsh (Swamp Loop). This will be a good opportunity for the moderate off-roader. There will be lots of challenges.

Purdue Valley - Rated 5-6

The lush Neversink River Valley, which was once known as Denistons Ford, is a 500 acre parcel that winds along steep outcroppings of rock ledges near the infamous Purdue Brook. Moderate rocks, good hill climbs, plenty of goeey mud and lunch along the banks of the Neversink is what Purdue offers.

12 Step Program - Rated 6-7

12 Step wanders around the grounds of the former Capital Inn Resort that met its' fiery demise in the 1940's. This trail runs over a large tract of land between two old mill towns. Nothing remains of this once grand resort except a huge foundation in the ground atop a hill near the former Newburgh Cochection Turnpike. Steep hills, ledges, high probability of swampy mud and the infamous 'stairs' await jeepers on this challenging trail.

White Lake Brook - Rated 6-8

This challenging trail is on the same parcel as Whispering Woods along Swinging Bridge Reservoir. This trail takes you over the Moscoe Road, which leads to the now flooded hamlet of Starlight that was sacrificed to make this electricity producing body of water. Six hundred acres of wilderness allows this trail to offer a wide variety of terrain that includes some great hill climbs, river crossings, plenty of rock and

plenty of mud if nature cooperates. Trail geared towards the more experienced Jeep. At least one locker and 33" tires advised.

Hummel Hollow - Rated 6-8

Legend has it during prohibition, a small riverside grain mill, (Shady Brook Mill) doubled as a moonshine distillery that serviced many Catskill resorts with illegal "hooch". This trail offers challenges for the more experienced and equipped Jeeps with a creek crossing, hill climbs, rocks and mud.

Gilroy Hill - Rated 8-9

In the late 1800's, the Gilroy family emigrated from Ireland to the U.S. where they ended up in the Monticello area. This trail weaves through much of the land they settled along the fertile banks of the Mongaup River Valley. This trail offers the experienced Jeep a variety of terrain, including rocks, mud, hill climbs and did we mention more rocks and more mud?

Snake Bite - Rated 9+

You asked for harder, so here it is! Not to say too much about this trail, but we've done the actual Rubicon Trail with an open differential TJ and we believe this trail is realistically twice as hard! While on the same land as Whispering Woods, this trail offers sharp turns off the beaten trail through some of the worst rock gardens the glaciers dropped us, two creek beds with some running water cascading down at your Jeep and a sick hill climb. This one is for the very experienced Jeep with a serious vehicle. 35" tires are recommended, 2 lockers, 3" lift min, winch required. This one is not for the faint of heart.

OMG - Rated 7-9 This trail wanders the lands of the infamous Phillip Del Fungo Giera, a WWII era inventor, munitions dealer and international spy, who was charged in federal court for his impersonation of an Army Major and claimed to have represented 13 different foreign governments as a secret agent. Among other things, Giera claimed to have invented the famous "calling cards" – incendiary missiles dropped by the Royal Air Force on German forests during the war, but in the end – more than likely was a world renowned swindler. He was a true mystery man with his laboratory located on this very property within just under 1000 acres he owned and built weapons. His laboratory was torn down in the late 1990's and it's rumored there are hidden caches of old ammunition scattered throughout this parcel. The trail through this mysterious parcel takes you over hill climbs, rock gardens and through the perch where it's believed Giera asked his fiancé to marry him in 1938. No matter truth or legend, this challenging trail will go down as one in history that made you work!

The Godfather - Rated 7-9 This trail wanders through the lands of a defunct development once under the ownership of the purported head of one of New York

City's organized crime families and served as their private hunting preserve in the 1990s and early 2000's. When the economy took a turn downward in 2008, so did the vision of turning this 500 acre parcel into a second home development for the wealthy. Through the generosity of the current landowners we're able to traverse some of the worst terrain the Catskills has to offer, over killer rocks the glaciers dropped here in the worst places as you weave your way down to and along the banks of the Kinne Brook. This trail is for the very hearty and most experienced off-roader. Expect to take a beat'n like only the Godfather an administer, there's no guarantee you won't get whacked since this one's bad. If you're expecting to come out of the Godfather unscathed – fuggedaboutit, it ain't happen'n pal!

Five Balls - This trail is on the same lands as the Godfather and is currently under construction – actual rating will be revealed at trail sign-ups depending on how terrible the Trail Guides make it over the summer of 2018. Let's hope they were in a good mood and didn't make it another killer like the Godfather!

A MESSAGE FROM YOUR TRIP COORDINATORS

Welcome to our 21st year of providing an extraordinary off road experience for our participants. The trails on the Catskill Mountains Jeep Jamboree range in difficulty from 5 to 9. These trails include a mix of rocks, water holes, stream crossings, hill climbs and some of the most beautiful scenery you could ask for. **To see some of our trails and become acquainted with the Catskill Mountains trail guides go to:** www.catskillsjeepjamboree.com

Please take the time to speak with the trail guides Thursday evening during trail sign-ups and vehicle check. Our trail guides can help you decide which trails best suit your vehicle and experience level. Your guides will recommend trails to help make your trip more enjoyable and safe, while minimizing the risk of possible damage to your Jeep. First time participants are encouraged to stay on the lower rated trails.

While some participants may want a more difficult trail, others may choose to take it easy. Trail conditions and ratings can increase or decrease 1 to 2 points depending on the weather. CB Radios are crucial to our ability to provide each of you with a great off-road experience. This is your best way to ask for assistance, hear directions and learn interesting information about the history of the area you are trail riding in. Participants without a CB radio can and do slow down the flow of the trail ride. Please have a CB radio with you.

Whatever the weather, this Jamboree will offer some of the most enjoyable, scenic and challenging trails on the east coast!

TRAIL USAGE AND INFORMATION

WATER CROSSINGS

Some Jamborees may have water crossings and water holes. Many of these crossings and holes offer a bypass, if you decide to "go around". It is very important to watch and listen to your trail guide.. When driving in deep water, GO VERY SLOW! If your engine gets wet and stalls, DO NOT try to start it as you may cause serious engine damage. For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving", which is available to be downloaded on our website.

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas, which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Jeep Jamboree trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your

cooperation in assuring Jamboree access to some of America's most spectacular backcountry.

Also, please note that while we trim back as much brush as possible, we are limited by Federal, Tribal and Private landowners to the amount acceptable by each entity.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

TRAIL RATINGS

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the over trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle check prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

1-2 Obstacles and terrain are relatively easy to navigate. *In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).*

3-5 Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

6-7 Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

8-9 Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

10 Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO, front and rear lockers, skid plates, rock rails and an aftermarket rear differential cover. Rubicon Trail Jeep Jamboree is limited to YJ's, TJ's and JK

models only. *Jeep Renegade, Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commanders are not allowed.*

During registration participants will have the opportunity to discuss the trails, their driving experience and vehicle capabilities with the trail guides. Guides will work with participants for trail placement.

RAIN MAY INCREASE TRAIL RATINGS 1 OR 2 POINTS, ESPECIALLY WITH STREET TIRES.
