TRAIL DESCRIPTIONS

Please keep in mind that trail options can change at the last minute. Below are possible choices.

Indian Fort 1 - 2

Indian Fort trail is short and offers a scenic view of the Agua Fria River. The remains of the Indian Fort are exciting to climb into with a near 360 view of the area. The rocky wall can be observed from the trail. This trail can be combined with another nearby trail to offer a nice days drive. One steep section of the

road will likely require 4 lo. Please do not disturb the wall of the fort or anything within the fort.

Tip Top Mine 2

This is a bumpy, narrow, and slow moving trail up to the Tip Top Mine. This trail also offers the occasional shift into 4 lo for a couple of rough sections near the end of the trail. Skid plates are recommended. 31 inch tall tires or bigger are recommended. This trail offers some exploration of the area surrounding the remains of the Tip Top Mine. Please feel free to explore the area but please stay out of the mine shafts and do not disturb any remnants of mining equipment that you might find.

Crapshoot 4 Moderately demanding

Crapshoot includes parts of Moore's Gulch, a scenic trip near and under the I-17. This trail has narrow shelf-roads and steep ascents. A couple small rock gardens offer some technical driving with a nice scenic view of the surrounding Table Mesa area. 4-lo is needed in some sections due to the steepness of the trail and rock gardens.

Lower Terminator 6

This trail is light at the beginning with obstacles becoming larger as you progress. The first main obstacle is called, "The White Line," and has a very off camber, steep downhill right descent into the wash. Bypass to the left is very steep, off-camber to the right and requires multiple point turns for long wheel based vehicles to enter. The next obstacle is called "Z-Turn," with 2 main lines. A steep V-notch in the middle and a tight chute far to the right which offers a wheel standing photo opportunity, mild risk of body damage. A bypass is available for "Z-Turn." There are several moderate, difficult and extreme lines through the remainder of the trail. The exit is a very steep left hand turn uphill which is loose. Body damage is possible in sections, rockers are helpful and rocker protection is needed. No less than 33" tires are recommended.

Upper Terminator 6

This trail is a continuation of the same wash as Lower Terminator. Bigger ledges, narrower obstacles and technical rock crawling in places will be provided by this trail system. Body damage is possible in sections. Less bypasses, lockers helpful and body protection is needed. No less than 33 inch tires are recommended.

Predator 7 - 8

Predator offers a more difficult rock crawling opportunity for participants. There are fewer bypasses and tighter more narrow obstacles that are passable with careful spotting. This is a very fun trail that will require the use of your lockers. Rocker protection is needed. Recommended for no less than 33 inch tires.

The Backway to Crown King 3-5

This is a long and scenic trip through the Bradshaw Mountains in the Prescott National Forest. There are obstacles for everybody from easy to moderate. This trail includes shelf roads, where your attention is required and rolling hills as far as the eye can see. Make sure to take a few minutes to check out the town of Crown King, especially their home made fudge in the general store.

Turkey Creek 3

Turkey Creek is an easy to moderate trip through the Bradshaw Mountains following alongside Turkey Creek. This area is full of mining history and you will see remnants of it along the trail. This trail is constantly changing throughout the year depending on the level of rain. It is always an adventure. There is also a stop along the way to visit a private claim and to visit Miner Bob.

A MESSAGE FROM YOUR COORDINATOR

We are looking forward to the 3rd Table Mesa Jeep Jamboree in the Table Mesa Recreational Area. This area has lots to offer the off-road enthusiast.

The trail system has over 55 miles of trails and encompasses almost 1500 acres. Rocks, scenic vistas, shelf roads and more will be a part of your off road adventure weekend. We are very protective of our OHV areas here in Arizona. We ask that you Tread Lightly and respect open access. We have put together a great collection of trails for the Jeep Jamboree USA Jamboree. There is a bit of variety in the area and we hope you enjoy yourself.

TRAIL USAGE AND INFORMATION

WATER CROSSINGS

Some Jamborees may have water crossings and water holes. Many of these crossings and holes offer a bypass, if you decide to "go around". It is very important to watch and listen to your trail guide. Please be sure your air intake is disconnected. Your trail guide can help you with this if needed. When driving in deep water, GO VERY SLOW! If your engine gets wet and stalls, DO NOT try to start it as you may cause serious engine damage. After the Jamboree, please be sure to reconnect your air intake. For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving".

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas, which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Jeep Jamboree trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry. Also, please note that while we trim back as much brush as possible, we are limited by federal, tribal and private landowners to the amount acceptable by each entity.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring

degraded areas, and joining a local enthusiast organization.

TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle evaluation prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

1-2 Obstacles and terrain are relatively easy to navigate. In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).

3-5 Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

6-7 Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

8-9 Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

10 Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO (*Not recommended for Jeep Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commander.*)

During registration participants will have the opportunity to discuss the trails, their driving experience and vehicle capabilities with the trail guides. Guides will work with participants for trail placement.

RAIN MAY INCREASE TRAIL RATINGS 1 OR 2 POINTS, ESPECIALLY WITH STREET TIRES.

FREQUENTLY ASKED QUESTIONS

WHO CAN I BRING?

Whoever you want! As long as they each have a required seat belt in your Jeep 4x4. Bringing pets is strongly discouraged. If your pet must attend, you must sign and date a pet waiver during registration.

WHERE DO I SLEEP ON A JEEP JAMBOREE?

Participants are responsible for arranging their own lodging. Included in this trip itinerary is a list of accommodations. Be sure to mention you're attending a Jeep Jamboree when making your reservation.

WHAT DOES THE JAMBOREE FEE COVER?

Your fee covers all necessary permits, land-use fees, experienced guides for the entire trip, an event T-shirt and three meals on both Friday and Saturday ("Select" adventurers include evening meals only). NOTE: Meals vary. Regretfully, no accommodations can be made for special diets or dietary restrictions. Also included is an official Jeep Jamboree dash plaque and access to some of the finest trails in America – several of which are only available through this program. Each Jamboree also features a giveaway for chances to win great prizes from our sponsors. Sorry, no partial trips are offered or meal only options and no spectators allowed. All participants must be officially registered.

CAN I BRING MY JEEP LIBERTY, CHEROKEE, COMPASS, PATRIOT, GRAND CHEROKEE, OR COMMANDER?

Of course! All new Jeep 4x4 vehicles with a 4-LO transfer case are Trail Rated® and are tested on demanding 4x4 trails. Your Jeep four-wheel-drive vehicle is required to be in good condition, with good tires, brakes, and seat belts. In addition, we require prior approval for larger Jeep 4x4s, such as Grand Wagoneers and J-Series Pickups. Jeep Jamboree USA reserves the right to refuse participation to any applicant whose vehicle exceeds size restrictions.

COULD MY VEHICLE BE DAMAGED ON A JAMBOREE?

Every effort is made by Jeep Jamboree USA to make the trails as safe as possible. Participants are advised to closely follow instructions given by trail guides, spotters, and Jeep Jamboree USA. However, there's the possibility of damage to your vehicle when traveling rough terrain. Any damage is the owner's responsibility. Jamborees with higher difficulty ratings are more likely to encounter terrain that may contribute to vehicular damage. Participants are required to sign, date and turn in a waiver at on-site registration.
