DRONE POLICY

Many of the land owners, federal and local agencies, etc. prohibit the use of drones. Most drones require you to have a Part 107 license if you are flying over people or publish videos. Many times our stops are for bathroom breaks which are inappropriate times for drone flights. If you may legally fly your drone, permission is still required from the guides on your trail and you must not cause any delays or disruptions as determined by the guides or staff. You are responsible for any damage, fines, penalties, and/or legal action incurred in the operation of your drone.

KNOW BEFORE YOU GO

The Jeep Jamboree USA Off-Road Driving Tips booklet is the ultimate guide to safe, common sense off-road driving. View the guide at <https://link.jeepjam.com/drivingtips>

FOLLOW THE FLOW

When you arrive at a Jeep Jamboree, you must complete these steps in this order:

Vehicle Evaluation → Registration → Trail Sign-Up

You will not be permitted to sign-up for trails until you have completed Vehicle Evaluation and Registration.

PHOTO ID REQUIRED AT REGISTRATION

The driver of record is required to show a photo ID when presenting your waiver and picking up your registration packet. The names on the ID and registration must match or you will be turned away without a refund.

NAME BADGE

Each person must wear their name badge throughout the entire Jamboree. A name badge is required for meals and must be presented whenever requested by a guide or staff member.

TRAIL STICKERS

Trail stickers provided at trail sign-ups must be displayed on your windshield prior to departing for any off-road trail ride.

TRAIL CONDITIONS

Trail conditions can vary widely between trails and even on the same trail on different days. Factors such as weather, other Jeepers, and the line you choose all have an effect on the trail and how your Jeep will traverse it. Rainfall, even from days prior, may increase trail ratings 1 or 2 points. When in doubt, ask a Jeep Jamboree Trail Guide for guidance. Please note that Federal, Tribal and Private landowners may limit the amount of brush we are able to trim back on a trail.

WEATHER CONDITIONS

Weather conditions can be dynamic at a Jeep Jamboree. We recommend you look at a 10-day forecast of weather conditions. Be sure to check the weather for all areas listed in the itinerary as different locations may have very different temperatures.

NEW FOR 2025 – SAFETY EQUIPMENT

A fire extinguisher and first aid kit are highly recommended.

NEW FOR 2025 – REQUIREMENTS FOR WINCH OWNERS

Winch owners are required to have an appropriately rated tree saver and soft shackle in your Jeep.

A MESSAGE FROM YOUR TILLAMOOK COORDINATOR...

The Tillamook State Forest (TSF) offers some of the most fun and challenging Off-Highway Vehicle trails in the state of Oregon. Browns Camp, Jordan Creek, Diamond Mill, Lyda Camp, and the Trask areas of the Tillamook State Forest combine to provide more than 250 miles of off road adventure. These trails will take us through some of the most scenic areas of the coastal mountain range, with over 136 OHV multi-use trails. Nestled in the Coast Range, the Tillamook State Forest sits in the northwest corner of Oregon, between Portland and the coast. Whatever your interest, the Tillamook State Forest holds an abundance of opportunities for discovery, exploration, hiking, wheeling and learning.

Our trail guides are from Southwest Washington and Northwest Oregon. This is our backyard and we are proud to call it our playground. We are all looking forward to making this a fun and exciting Jamboree for you, your family and friends.

Join us for trees, cheese, and ocean breeze!

TRAIL DESCRIPTIONS

With OHV trail names like Truck Dent (a Jeep commercial was filmed here), Rocky Uphill, Firebreak Five, Stick in the Nose, and Cedar Tree (don't forget your camera - some of you will be able to drive under this one), we have OHV trails for everyone, all with varying difficulty levels. We even have a Sand Dune run on the Pacific Ocean at Sand Lake. For those of you who are trying to get your Badge of Honor Trails, the Tillamook State Forest (TSF) has two trails that you can check off your bucket list; Cedar Tree and Firebreak Five.

The TSF OHV trails offer varying levels of difficulty ranging between 3-8. Add a little water, and the traction/grip gets even tougher and translates to the true meaning of "Slick Rock". Then add "Slick Wood" and it can make getting up the trail very challenging. Have your tow/recovery strap and "screw pin bow shackles" ready - for the vehicle behind you of course!

There are gravel roads, rock filters, rock gardens, dirt, rocks, trees, boulders and mud holes. Oh did we mention there is also a stump crawling trail? These OHV trails are cut through the forest at varying difficulty levels for all to enjoy.

Driving to the OHV trails will require planned routes for us to take you to the TSF areas that we will be riding on. Once off the roadways, we travel through the forest via gravel roads. The routes to the "OHV Signature Trails" will include other OHV trails to use to and from. The OHV trails are anywhere from ¼ mile to just over 3 miles long. Each OHV trail segment has its own difficulty levels and is rated as such. Even though you are signing up for an OHV Signature Trail name, by the end of the day you may have traveled on 3 to 5 other OHV trails with similar difficulty rating.

TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle check prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

- | | |
|---|---|
| <p>1-2 Obstacles and terrain are relatively easy to navigate. In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).</p> <p>3-5 Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.</p> <p>6-7 Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.</p> <p>8-9 Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.</p> | <p>10 Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail.</p> <p>Requires 4WD with 4-LO, front and rear lockers, skid plates, rock rails and an aftermarket rear differential cover.</p> <p>Rubicon Trail Jeep Jamboree is limited to TJ, JK, JL and JT models only without prior approval. Jeep Renegade, Patriot, Compass, Liberty, Cherokee, Grand Cherokee, Commanders, and Wagoneers are not allowed.</p> |
|---|---|

During registration you will have the opportunity to discuss the trails, your driving experience, and Jeep capabilities with the trail guides. The guides will work with you to select appropriate trails. Rain may increase trail ratings 1 or 2 points, especially with street tires.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas which are closed to all other vehicular access during the year.

Please be aware that access to these trail areas is allowed only by guided Jeep Jamboree USA groups during the scheduled Jeep Jamboree trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of Jeep Jamboree USA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund.

Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry.

FREQUENTLY ASKED QUESTIONS

ARE JEEP JAMBOREES SAFE?

Our trail guides are trained to put your safety first. If they ask you to refrain from any activity or to avoid specific trails or areas, you must follow their directions. Jeep Jamboree USA does not authorize or promote any night runs. You must wear your seat and shoulder belts. If a Trail Guide asks you to wear your seat belt and you do not comply, you will be removed from the Jeep Jamboree without a refund and banned from Jeep Jamborees.

WILL MY JEEP BE GOING THROUGH WATER?

Some Jamborees may have water crossings and mud holes. Many of these crossings and holes offer a bypass. It is very important to watch and listen to your trail guide. When driving in deep water, **go very slowly!** If your engine gets wet and stalls, **do not** try to start it as you may cause serious engine damage. For additional tips on water crossings and many other off-road situations, please refer to your copy of *Jeep Jamboree USA Off-Road Driving Tips*, available at <https://link.jeepjam.com/drivingtips>

YOU MUST WEAR YOUR NAME BADGE

When you register on-site, you will be given one name badge per participant. Please wear your name badge while at the event as it is verification of your registration, your admission to the trails and meals, and helps everyone get to know each other.

GET CONNECTED WITH OUR FACEBOOK GROUPS

MAY I BRING MY PET?

Bringing pets is strongly discouraged. If your pet must attend, you must submit a pet waiver during registration.

WHAT IS THE POLICY ON ALCOHOL, DRUGS, ETC.?

No occupants of the vehicle will possess or consume alcohol, non-prescription drugs, or be under the influence of any substance while on the trails. Doing so means immediate expulsion without a refund and those involved will be banned from all future Jeep Jamborees.

COULD MY VEHICLE BE DAMAGED ON A JAMBOREE?

Every effort is made by Jeep Jamboree USA to make the trails as safe as possible. You are advised to closely follow instructions given by Jeep Jamboree Trail Guides. Jamborees with higher difficulty ratings are more likely to encounter rough and challenging terrain that may contribute to vehicular damage. Any damage is the owner's responsibility.

GMRS RADIO, CHANNEL, AND FREQUENCY INFO

IF YOU DON'T HAVE A GMRS RADIO YET

Your easiest and best option is to purchase one of the recommended Midland radios. These quality radios are easy to use and are available at <https://link.jeepjam.com/radios> and at Jeep Jamborees.

RADIO DIFFERENCES AND FREQUENCIES

In late 2017, the FCC set standards for FRS/GMRS channel numbers and frequencies. Any FCC approved radio manufactured after October of 2017 will match the channels in the chart and work for your Jeep Jamboree.

FREQUENCIES AND POWER

FRS and GMRS use the same channels/frequencies. FRS runs at lower power while GMRS runs at higher power.

LICENSING

Operating a GMRS radio requires a valid license. Any radio using the shared FRS/GMRS frequencies that is able to transmit above 2 Watts of power is considered a GMRS radio and requires a license.

WHY GMRS OVER FRS OR CB?

With FRS handhelds you may hear others on the trail, but they may not hear you. GMRS has more power, meaning you can transmit farther. GMRS offers more reliability, usability, and quality over a CB radio.

Frequency	FRS/GMRS Channel	FRS Power	FRS Bandwidth	GMRS Power	GMRS Bandwidth
462.5625 MHz	1	2 W	12.5 kHz	5 W	20 kHz

462.6875 MHz	6	2 W	12.5 kHz	5 W	20 kHz
462.7125 MHz	7	2 W	12.5 kHz	5 W	20 kHz
Channels 8-14 are low power (.5 watt) channels and are not used by Jeep Jamboree and some high power radios

462.5750 MHz	16	2 W	12.5 kHz	50 W	20 kHz
