## **A MESSAGE FROM YOUR COORDINATOR**

Back for our 2015 Jeep Jamboree season, are our stock trails. We will have two stock trails for Friday and Saturday. These are offered as scenic, with some technical and lots of interesting information about the area. Your guide for these trails will also help you become more familiar with your Jeep 4x4 by offering tips and valuable information that will carry you through to your next off road experience.

Be sure to join the Discussion Group for the Killington Jeep Jamboree. It is a great way to connect with other attending participants and keep up to date on any new information pertaining to the Jamboree.

A special waiver, required by the Killington Resort will be available on our website. Please fill this out and bring to Thursday registration. A Killington representative will be on hand to receive them. They require one waiver per person.

## **TRAIL DESCRIPTIONS**

### **Trails are subject to change.**

The following trails are a brief description of what **MAY** be available. Due to permitting issues and winter conditions, some trails may not be available once you arrive at the Jamboree.

### **CHATEAGUAY – Rating 3 - 4**

The Chateaguay trail is comprised of several historic roads winding through Killington and surrounding towns. Expect the ride to be fairly easy to moderate with a few tricky areas where boulders and mud are present. The trail goes through a wide variety of local Vermont countryside; you'll experience everything from mountain tops with beautiful vistas to sparkling mountain streams to shady valleys and various points of interest along the way. You can expect to hear some of the mysterious stories and local folklore from your trail guide who is a native of the area.

### **5 CORNERS - Rating 3 - 4**

Ride old un-maintained roads in a forest like setting with names like Mount Moses, Brown School House, Hale Hollow, Curtis Hollow and Chase Four Corners. We will travel by the Five Corners Village, an 1850's gold mining settlement. Along the way there will be water crossings, rocky sections and steep climbs that should challenge stock vehicles.

### **VERTIGO - Rating 5 - 6**

Enjoy spectacular views and varied terrain as you traverse the slopes and woods of Pico Mountain. You can expect to encounter mud, hills, grass and rocks as you wind your way through the trees and over the ski trails. Don't forget your camera! Scenic vistas abound,

including views of five states and Canada from the 3,967' high summit. 33" tire minimum, at least one locker and winch required.

### **NO NAME - Rating 6 - 7**

This trail runs through the remnants of an old ski area that is now used for snowmobiling, cross country skiing, snowshoeing and hiking. It has some moderate hill climbs, gooey sections, log crossings and rocks. This trail was intended to be named at the first Killington Jamboree through participant input. However, a rowdy group of wheelers at the first Jamboree decided (loudly) that it should remain the trail with "No Name". 33" tire minimum, at least one locker and winch required.

### **THE GLADES - Rating 6 - 7**

The Glades trail has a wonderful mixture of vista's, mud, rock, and fun. Your trip will include some wonderful scenic views (weather permitting), some tight technical areas that will make you think about the paint, a few rocks thrown in here and there and some nice hill climbs that will require the skinny pedal and some luck. This ride has some mild areas that will lull you into being complacent then surprise you with some tough obstacles. 33" tires, at least one locker and winch required.

### **BULLWINKLE'S REVENGE - Rating 7 - 8**

Bullwinkle's Revenge brings you right down the Great Eastern Ski Trail. It contains some very challenging terrain and many technical obstacles including rocks, difficult climbs, off camber sections and of course plenty of the typical New England mud. You may even catch a glimpse of Bullwinkle the Moose! At least one locker, a winch and 33" tires are required.

### **TIMBERJACK TRACK - Rating 9**

As we wheel up and across the out of service ski trail we will encounter plenty of mud, rock, and steep hill climbs to keep you entertained until sunset. Bring all of your off-road driving expertise, you will need it to complete this challenging day of wheeling. At least one locker, winch and 34" tires are required.

## **LOCAL AREA INFORMATION**

### **WEATHER**

The mornings and evenings can be a bit cool, but the daytime temperatures should be warm. The trick is to dress in loose fitting and comfortable layers so you can easily adjust to the temperature. Rain is always a possibility so be prepared. The black flies, non-biting but irritating, could be present; it depends on the weather. Some folks claim attaching a dryer sheet to your hat or shirt keeps them at bay. Although funny looking this actually seems to work! The mosquitoes may also be present; pack some bug spray just in case. For an up-to-date 10-day weather forecast please go to [www.weather.com](http://www.weather.com)

## **TRAIL USAGE AND INFORMATION**

### **WATER CROSSINGS**

Some Jamborees may have water crossings and water holes. Many of these crossings and holes offer a bypass if you decide to "go around". It is very important to watch and listen to your trail guide. Please be sure your air intake is disconnected. Your trail guide can help you with this if needed. When driving in deep water, GO VERY SLOW! If your engine gets wet and stalls, DO NOT try to start it as you may cause serious engine damage. After the Jamboree, please be sure to reconnect your air intake. For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving".

### **A NOTE ON LAND USAGE**

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas, which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Friday and Saturday trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry. Also, please note that while we trim back as much brush as possible, we are limited by Federal, Tribal and Private landowners to the amount acceptable by each entity.

### **PLEASE TREAD LIGHTLY!**

**Travel responsibly** on designated roads and trails or in permitted areas.

**Respect the rights** of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

**Educate yourself** by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

**Avoid sensitive areas** such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

**Do your part** by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

## TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle check prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

**1-2 Obstacles and terrain are relatively easy to navigate.** In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).

**3-5 Moderately demanding.** Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

**6-7 Demanding.** Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

**8-9 Very demanding.** Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

**10 Extremely demanding.** Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO (*Not recommended for Jeep Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commander.*)

During registration participants will have the opportunity to discuss the trails, their driving experience and vehicle capabilities with the trail guides. Guides will work with participants for trail placement.

**RAIN MAY INCREASE TRAIL RATINGS 1 OR 2 POINTS, ESPECIALLY WITH STREET TIRES.**

## FRIENDLY REMINDERS – Before, During, After Your Trip
