MESSAGE FROM YOUR COORDINATORS

Welcome to the Pacific North West and Tillamook, Oregon. We are Mark and Terry Chriss, your Coordinators for this Jamboree. You may have met us at the Ouray, Arch Canyon, Roof of the Rockies, and/or the Moab Jeep Jamboree where we have been Trail Guides for several years. We want to invite all of our "old" friends and soon to be "new" friends to join us for the 1st Annual Tillamook Jeep Jamboree in the beautiful Pacific Northwest!

The Tillamook State Forest (TSF) offers some of the most fun and challenging Off-Highway Vehicle trails in the state of Oregon. Browns Camp, Jordan Creek, Diamond Mill, Lyda Camp, and the Trask areas of the Tillamook State Forest combine to provide more than 250 miles of off road adventure. These trails will take us through some of the most scenic areas of the coastal mountain range, with over 136 OHV multi-use trails. Nestled in the Coast Range, the Tillamook State Forest sits in the northwest corner of Oregon, between Portland and the coast. Whatever your interest, the Tillamook State Forest holds an abundance of

opportunities for discovery, exploration, hiking, wheeling and learning.

Our trail guides are from Southwest WA and Northwest Oregon. This is our backyard and we are proud to call it our playground. We are all looking forward to making this a fun and exciting Jamboree for you, your family and friends.

Join us for TREES, CHEESE, and OCEAN BREEZE

TRAIL DESCRIPTIONS

Trail descriptions will be made available to you during registration on Thursday.

With OHV trail names like: Truck Dent (a Jeep commercial was filmed here), Rocky Uphill, Firebreak Five, Stick in the Nose, and Cedar Tree (don't forget your camera some of you will be able to drive under this one). We have OHV trails for everyone, all with varying difficulty levels. We are even looking into a Sand Dune run on the Pacific Ocean at Sand Lake, (permit approval pending). For those of you who are trying to get your Badge of Honor Trails, the TSF has two trails that you can check off your bucket list - Cedar Tree and Firebreak Five.

The TSF OHV trails offer difficulty levels of 3-9, add a little water, and the traction/grip gets even tougher, the true meaning of "Slick Rock", then add "Slick Wood" and it can make getting up the trail very challenging. Have your tow/recovery strap and "screw pin bow shackles" ready - for the vehicle behind you of course!

There are gravel roads, rock filters, rock gardens, dirt and trees and more rock and trees, boulders to play on, mud holes, oh did we mention there is also a stump crawling trail. You better have your hi-lift jack ready to use on that one. These OHV trails are cut through the forest at varying difficulty levels for all to enjoy.

We access the TSF areas off Hwy 6 from mile marker 12 to 33. Driving to the OHV trails will require planned routes for us to take you to the TSF areas that we will be riding on. Once off the roadways, we travel through the forest via gravel roads. If it is dry it will be dusty, if it is wet it will be muddy. The routes to the "OHV Signature Trails" will include other OHV trails to use to and from. So it is not all dusty, muddy, gravel road driving. The OHV trails are anywhere from ¼ mile to just over 3 miles long. Each OHV trail segment has its own difficulty levels and is rated as such. Even though you are signing up for an OHV Signature Trail name,

by the end of the day you may have traveled on 3 to 5 other OHV trails with similar difficulty rating.

TRAIL USAGE AND INFORMATION

WATER CROSSINGS

Some Jamborees may have water crossings and water holes. Many of these crossings and holes offer a bypass if you decide to "go around". It is very important to watch and listen to your trail guide. Please be sure your air intake is disconnected. Your trail guide can help you with this if needed. When driving in deep water, GO VERY SLOW! If your engine gets wet and stalls, DO NOT try to start it as you may cause serious engine damage. After the Jamboree, please be sure to reconnect your air intake. For additional tips on water crossings, please refer to your copy of "Mark A. Smith's Guide to Safe, Common Sense Off-Road Driving".

A NOTE ON LAND USAGE

Many Jeep Jamboree USA events are held on private lands with the consent of landowners, or on public lands through special use permits. In some cases, Jamboree trail groups are granted access to trail areas, which are closed to all other vehicular access during the year. Please be aware that access to these trail areas is allowed only by guided JJUSA groups during the scheduled Friday and Saturday trail rides. Individual Jamboree guests returning later to drive in these areas on their own do so in violation of JJUSA's land use agreements and endanger future Jamboree usage of these restricted trails as well as being removed from the Jamboree without a refund. Thank you for your cooperation in assuring Jamboree access to some of America's most spectacular backcountry. Also, please note that while we trim back as much brush as possible, we are limited by Federal, Tribal and Private landowners to the amount acceptable by each entity.

PLEASE TREAD LIGHTLY!

Travel responsibly on designated roads and trails or in permitted areas.

Respect the rights of others including private property owners and all recreational trail users, campers and others to allow them to enjoy their recreational activities undisturbed.

Educate yourself by obtaining travel maps and regulations from public agencies, planning for your trip, taking recreation skills classes, and knowing how to use and operate your equipment safely.

Avoid sensitive areas such as meadows, lakeshores, wetlands and streams, unless on designated routes. This protects wildlife habitat and sensitive soils from damage.

Do your part by leaving the area better than you found it, properly disposing of waste, minimizing the use of fire, avoiding the spread of invasive species, restoring degraded areas, and joining a local enthusiast organization.

TRAIL RATING SYSTEM

Every Jamboree trail is rated from 1 (easiest) to 10 (the most difficult). These ratings are based on the overall trail, not just on one or two tough spots. Rain can increase ratings by one or two points. Please remember, all vehicles are subject to vehicle check prior to trail departure. Numerically higher rated Jamborees are more likely to result in vehicular damage.

1-2 Obstacles and terrain are relatively easy to navigate. In optimum weather conditions, some trails may not require continual use of four-wheel drive (4WD).

3-5 Moderately demanding. Challenge for novice drivers. Obstacles may include: mud holes, boulders, and streams. Requires 4WD with 4-LO.

6-7 Demanding. Challenge for most skill levels. Mud holes get deeper, boulders get larger, and climbs get steeper. Requires 4WD with 4-LO.

8-9 Very demanding. Likelihood of getting stuck is high. Mud holes may be deep and rock climbing is more arduous. Lifts and lockers are helpful. Requires 4WD with 4-LO.

10 Extremely demanding. Reserved for the toughest off-road trip in the U.S.A. – the Rubicon Trail. Requires 4WD with 4-LO (*Not recommended for Jeep Patriot, Compass, Liberty, Cherokee, Grand Cherokee, or Commander.*)

During registration participants will have the opportunity to discuss the trails, their driving experience and vehicle capabilities with the trail guides. Guides will work with participants for trail placement.

RAIN MAY INCREASE TRAIL RATINGS 1 OR 2 POINTS, ESPECIALLY WITH STREET TIRES.
